—Calgary has increased its police force on account of the rush of immigration to and through the town at present.

—The water in the river is rising slightly and the ice is getting soft and choppy. Freighters need the ice until Wednesday.

—Owing to a break-down in the type-setting machine a great part of to-day's paper had to be set by hand. This has necessitated the ommission of considerable local matter

—Winnipeg Telegram, April 15-h—James Scroggie, manager for Manitoba and the Northwest Territories of the Equitable Life, returned yesterday from a trip over his territory and also through the Kootenays, which has occupied him for a period of five weeks. Mr. Scroggie says that on the Edmonton line there is a tremendous rush of business; southern Alberta was also the scene of great activity.

—Major E. W. Hubbell, Dominion land Surveyer, Ottawa, has arrived in Edmonton. The major is an Edmonton old-timer. He left here in the spring of '96 and remained for some time in Manitoba, where he located the different colonies of Doukobors. He has lately been in the Land Patents office at Ottawa but the voices of the west were calling him and he could not resist. He will engage in government survey work east of Wetaskiwin. He is greatly pleased with the magnificent progress Edmonton has made in the past few years. Major Hubbell takes an active interest in sports of all kinds and was greatly surprised to find such magnificent skating and curling rinks in Edmonton. He leaves in a few days to commence survey operations arranging the boundarys of the electoral district at Wetaskiwin as instituted by the recent redistribution bill.

### JESSIE MACLACHLAN ENTERTAINMENT.

The Jessie MacLachlan Company appeared in Robertson Hall, Edmonton, last night. The hall was only partially filled but the entertainment was of a very superior nature and a delight to all lovers of good music. The charming personality of the ladies added much to the success of the entertainment. Miss MacLachlan's almost limitless range of voice and sweetness of expression carried her audience with her. Her rendering of Blue Bells of Scotland and Wi' a Hundred Pipers and A' left nothing to be desired. Her Gaelic songs were especially pure and sweet. Blue Bonnets O'er the Border received round after round of applause. Miss Dean as solo violiniste captured the audience by her beautiful stage appearance as well as by her remarkable technique and musical ability. Her playing was pure and sweet and was closely followed by a highly appreciative audience. Her violin imitation of the bagpipes appealed to the Scotch element of the audience and called forth hearty applause. To Mr. Robt. Buchanan, who acted as accompanist throughout the evening, is due a great measure of the success of the entertainment. Mr. Buchanan is a pianist of excellent ability. The program was brought to a close by the hearty singing of the national anthem.

### C. P. R. LANDS.

A telegram was received yesterday by G. T. Bragg, C.P.R. land agent at Edmonton from W. Toole, district land agent of the C.P.R. stationed at Calgary, notifying him that the price of all C.P.R. lands south of the Saskatchewan and east of the C. & E. railway was increased to $6 per acre.

**AN OPEN LETTER**

**To the Builders of Edmonton District.**

Gentlemen: No doubt you have heard and read in the papers recently a great deal about the so-called

"LUMBER COMBINE,"

and the consequent advance of prices. In this connection a few statements of fact from us may be in order.

The manufacturers of British Columbia advise us that the advance in prices is due to the increased cost of labor and of materials and that this justifies the advanced prices to the trade. Whether this is true or not we are not in a position to judge.

But we do know that it is very difficult to get orders for B. C. lumber filled with any degree of promptness. Many of the mills are sold out of stock and cannot at present ship a car. We therefore claim that the advanced prices is due to scarcity of lumber The price of any commodity is regulated in our day not so much by the cost of production as by the general demand for the commodity.

As to our own prices we beg to say that we are careful to see that they beat a right relation to cost. We cannot help the rise in B. C. lumber because the cost price is considerably advanced. But in the lines of our own manufacture such as Windows, Doors, Frames, etc., our prices are lower than the prices for the same articles either in British Columbia or Manitoba. This will indicate to you our position in this matter.

In view of the scarcity referred to if you are building or intend to do so, we advise you to place your order with us as soon as possible so that we may get in a position to fill it when required. We promise to do the very best for our customers that circumstances will permit.

Very Truly Yours,

### GAME LAWS IN THE FAR NORTH-WEST

The following excellent letter from the pen of H. Harrison Young, fisheries and fur inspector, Edmonton, was read at a recent meeting of the Gun Club. Mr. Young's suggestions received the thorough endorsation of the meeting:

Edmonton, Alta., April 15, '03

To the Edmonton Rod and Gun Club.

GENTLEMEN:—As I have for many years taken considerable interest in the game birds and fur bearing animals of this country, and have seen with regret that the latter especially have been killed out, without a voice being raised in behalf of their protection, I have thought if I could succeed in inducing this club to take such action as would bring the facts of the case to the notice of the Government, either Provincial or Dominion, it might be of some effect. Anyone who has given this matter any attention will have noticed in older Canada, and throughout the United States, precautionary measures were in nearly every case taken too late. Would it not be wise for us to profit by this by taking prompt action to preserve the game of all kinds we have with us. The preservation of all feathered game, and animals such as mouse, elk, cariboo, deer and antelope, is probably to a strictly sporting club, the side of the matter that would appeal to you most strongly. But as the members of this club are principally men engaged in some form of trade and are all interested in the welfare of this country, I think when you consider what a source of wealth the fur trade has been to the West, and particularly to Edmonton, that anything tending to the detriment of that trade is a matter worthy of your consideration, and of your best efforts to have a stop put to any practices that may be working against its continuance. These few remarks must be my apology for asking your attention while I briefly state a few facts in support of the above contentions. In regard to feathered game, we have laws which strictly enforced would have the desired effect. The Game Guardians appointed all over the country do very fair work, but you cannot expect too much from an unpaid man. Why should any man be asked to give his time gratis to enforce the law? and a Game Guardian to do good and effective work must lose considerable time and be out of pocket by it. In other words Game Guardians should be paid men and sworn to do their duty. We know that in Edmonton two years ago we had splendid duck shooting in the swamps just outside of town for they were pretty well looked after. Last year the shooting was poor because all summer Half Breeds and other Freighters camped at these sloughs, killed moulting ducks and were killing anything big enough to eat, long before the season opened. A great many birds are killed by so called travellers who are allowed by the act to shoot at any time. This country is now so settled up that there is no longer any reason to accord any men travelling a special privilege. A traveller now starts out on a journey knowing exactly how long he will be away and should provide provisions sufficient for his trip, and besides it is pretty hard now to travel 25 miles in any direction without finding some place one may renew supplies. Freighters all over the country kill much game before the seasons open. A law not in force is better repealed altogether. Why should a farmer or anyone else take any interest in preservation of game if when a flock of chickens raised in his fields can be killed off by any travellers the first time they go over his fence into the public road. It is well known to you all that though the white settlers and a large number of the Half-Breed population observe well the provisions of the law as regards deer of all kind, there are bands of Half Breeds who at elections are entitled to all the rights of any other citizens but who live as Indians and who annually destroy large numbers of ducks and geese in close season. These men want looking after. First they took a treaty, then scrip and now they want to claim rights as Indians. With regard to furs, it may surprise many among you to learn that of the large quantity of fur annually marketed in Edmonton one-third or more will grade No. 3 or below. Now no one wants these skins. In the days when the H. B. Co. held the monopoly of the trade they discouraged the killing of unprimed furs. Today they are opposed to it, so are the traders, for they get little or nothing for them. But the Indians force their hands. He says to the company or the trader as the case may be "Buy my poor skins or you wont get my good ones."

There is only one remedy for this evil, and that is to forbid exportation of furs lower than No. 3. It is of no use getting after the Indians, but if the trader and the H. B. Co know they can't sell or export their furs they will stop taking them and be pleased to do so. There is no use killing furs out of season. It is a sinful waste.

Kill a mink in September or October when it is only worth 10c. Kill it one or two months later and it is worth at prices today from $4 to $5. Kill a bear in summer it is dead poor and not worth eating, and the hide is only worth 50c; but killed in season it is worth $25, and the same with all animals. The animal that most deserves protection is the beaver. It is rapidly being exterminated. There is no more helpless animal than the beaver. Find his lodge and he is your meat; he does not move, and a good hunter is sure of him when he wants him. Why then kill him when unprimed? In old days Indians took care of their beaver and did not kill them out. Now they break the dams and kill all they find in a lodge. When a band of hunters go through a country now they practically ruin it. In 1875-76 there were over 50,000 beaver traded at the posts of Vermilion, Red river, Battle river, Peace river crossing, Dunvegan, St. John's, Hudson's Hope and Lesser Slave lake. Today there are not 10,000 traded at all these posts put together. In the spring of 1876 I traded from 17 Indians whom I met at the mouth of Moore river (which falls into Lesser Slave lake river) 1060 beaver, their spring hunt. These same men if alive today could not kill 60 beaver in that same country. When the Leading road was first opened out in 1876 beaver were numerous at many places along the trail. Today there are none. The killing of beaver in Alberta should be stopped for the next 10 years, and in the north for the next 5 years. Otherwise just as sure as they have disappeared all over America, so they will disappear in the north. They are just as good stock for an Indian, if properly handled and not killed out, as a band of cows is to a white man, and as the Indians have not sense to look to the future, the government, whose wards these Indians are, should step in and act.

In conclusion I would say that what seems to be required to protect our feathered game and deer is paid guardians to enforce existing laws. They should give attention to the stopping of the practice of taking eggs. It is well known to many of you that wagon loads of eggs are annually taken from the lakes of this district by half-breeds and Indians. The privilege now accorded travellers should be abolished and spring shooting should be stopped. I hope that what I have said may induce this club to take some action. If no good comes from it you will have the satisfaction of knowing you had called attention to the matter, and later on I feel certain many will regret that your note of warning did not receive attention.

I remain, gentlemen,
Yours, etc.,
HARRISON YOUNG

## Can He Do It?

Monday p. m. at 3.30, sharp, Mr. Griffith will undertake one of the most difficult and intricate tests known to the Phenomena of thought transference.

### The Blindfold Drive

The test is as follows: A committee of four business men will drive a team a devious course of several blocks about the city and at the conclusion hide an article (a pin or pen knife for instance). While this committee is covering the course Mr. Griffith will be in the hands of a second committee whose duty it will be to so securely guard him that he will gain no knowledge as to where the team has been driven or where the article has been hidden. After the committee has selected the course and hidden the article, the second committee will produce Mr. Griffith and after being securely and tightly blindfolded he will drive the team at a runaway pace over the exact course and find the hidden article.

The Committee for the test will be selected by the Bulletin, and will not be made known to Mr. Griffith until the moment of the starting at 3.30, which will show without question that the test will be without collusion.

STORE NEWS

THE STORE OF THE TOWN.

Perfect Store-Keeping is Our Aim

In every act we try to approach the standard of perfect store keeping. While no house can hope to reach this goal at a single bound, we make it our daily endeavor to progress toward the ideal, which we have set as a standard. We believe that quality and liberal policy are the superstructure, because low prices have little or no significance if quality is lacking; and a liberal policy that insures an exchange of merchandise or your money back if dissatisfied lends an air of freedom and independence to shopping that robs it of objectionable features. Our liberal policy has done more toward making shopping a pleasure than a mercantile innovation ever warranted, because we live up to it by making it the first law.

LACES & EMBROIDERIES

AIRY, FAIRY LACES. If we could tell the beauty of this display of cobwebby flimsiness, these counterparts of the dew-bespangled creation of the insect which spins its silken threads at night to glisten in the glory of the Spring morning, it would make our lovely laces no more real. Come and see them.

Lovely New EMBROIDERIES. Exactly these fine choice edges on nice cloths that appeal to women who desire quality.

BOOTS & SHOES

BOYS' & GIRLS' SHOES. — Good, reliable shoes for school or dress. If every mother in Edmonton knew how good and low priced are the shoes for children which we have, we should still have to say something about them every little while out of pure enthusiasm, and to let the newcomers to Edmonton know that the best is always the cheapest; and we have the best for your money.

Men's and Boys', Women's, Misses' and Children's RUBBER BOOTS in all sizes.

Shoe department on main floor, rear of left hand aisle.

MEN'S CLOTHING.

"BE WELL DRESSED this Spring." There's a prosperous look to the well dressed. We can dress you. "Facts are stubborne things" and when we advertise the best clothing for little money and back up the statement with the goods it is not hard to convince you that there are many reasons why we hold our patrons and why we are able to make so many new ones.

Picadilly Suits $12 to $30
" " Overcoats . . .
. . . $10 to $22.50
Picadilly Trousers $3 to 6.50

MEN'S HATS

BROWN IS THE ELECTED COLOR. The edict demands it of most every shade We have just twenty-five different styles of hats, both soft and stiff in all manner of browns. Also black, if you prefer it. They include the latest blacks sponsored by the Charge-for-the-Label hatters, and a few exclusive ones. We ask $2.50 for the hat—nothing for the Labie, yet it identifies as much style and material quality as any of them.

McDougall & Secord.

THE EDMONTON CLOTHING CO.'Y.

THE UP-TO-DATE CLOTHING HOUSE.

The alterations recently made in our store, being completed, give us the largest Clothing and Men's Furnishing establishment in Edmonton, and we have gone to considerable trouble to have the interior finish and lighting as choice as the store is large.

Having now the necessary room to properly show our goods, we have made good use of our opportunities and have spared neither pains nor expense in the fittings and the displaying thereon of our goods, to which we have added a large assortment in spring lines of

CLOTHING, HATS AND CAPS, HOSIERY, NECKWEAR, SHOES, ETC

We invite inspection of goods and premises.

# HOMES! HOMES

## W. H. HOOPER COMPANY

OFFERS ON

MONDAY, MAY 4TH, 1903,

## 200 LOTS - 50 X 150

ON

## Kenneth Macdonald Flats

The Finest Alluvial Soil on Earth.

On each Lot enough may be grown to support a family.

The property adjoins Little's brick yard on the South, the Experimental Farm on the North, and overlooks the Saskatchewan on the East.

The opposite bank of the river, rising in natural terraces from the water's edge to an average height of 150 feet, beautifully wooded, affords A PANORAMA OF HARMONY AND DELIGHT.

Edmonton has passed the experimental stage, and will possess in a few years a metropolitan population.

The Railway Question is settled. The Canadian Pacific, Grand Trunk and Canadian Northern are assured quantities.

A fact not generally known substantiates that Edmonton will be a terminus for some years, is that the carrying capacity of the Canadian Pacific exceeds the Oriental and British Columbian trades combined, and the three great roads mentioned will halt before pushing on to the Pacific, thereby making our city of vastly more importance than it would otherwise have been.

Much of the timber is primeval. The principal streets will be boulevarded, and ancient growth furnish overshade.

**Maps and schedules of prices open for inspection at W. H. Hooper Company's Office on May 4, 1903.**

# Perhaps

You are easily pleased. If Pretty nearly anything will suit you --well, we can do as well for you as anybody.

BUT IF

You are rather particular and want the latest, most stylish, daintiest and prettiest productions there are for spring and summer wear in blouses, skirts, suits, coats, neck wear, gloves, muslins, dimitties, wash silks, THAT IS WHERE WE COME IN.

IN HOUSE FURNISHINGS, TOO

Complete satisfaction, both now and for years to come, is the result of giving us your orders for Carpets, Oil-cloths, Linoleums, Curtains, etc.

A LADY WELL KNOWN IN EDMONTON recently told us that 10 years ago she bought a carpet from the Company and though in constant use, it still looks new." We have the newest and handsomist designs in all kinds of Floor-coverings, Curtains, Tapestries, Curtain Muslins, Art Sateens, Art Muslins etc.

A GENERATION OF WEAR will not destroy our inlaid or plain color pure Cork Linoleum.

WALL PAPER

Is the Department in which our superiority over all competitors is most easily apparent. Nearly one hundred of the most attractive designs made by the best makers for this season. We can suit any taste except bad taste. Prices anywhere from 5c to 40c single roll.

# W. H. Hooper Company

- - WILL OFFER ON - -

## MONDAY, MAY 4th, 1903,

# 200 = LOTS = 200

A portion of the ROWLAND ESTATE, otherwise known as "THE SYNDICATE."

Plans and Prices can be seen at the Office on and after the date mentioned.

This is the closest and best property available, and the choicest in and about Edmonton. The furthest part is from 10 to 15 minutes from the post office. The property is eminently the people's portion: is not controlled by a policy of inertia dictated by "Hebraic Hatred." The surveys conform to existing ones, and the streets will be projected to their legitimate confines. Building Sites on the verge of the hill overlooking the mighty Saskatchewan, the foliage and verdure of whose banks is not exceeded by the fiercest tropics or softest Pacific scenes, abound. Prices will be uniform and moderate, tempered as a corrective of the present indefinite craze.

TERMS.---One third Cash. Balance 6 and 12 months, interest 8 per cent. Agreements $2 each, transfers free.
